Feminism, romance
and gardening collide
in a quirky story of self-discovery

The Feminist EarthMother PartyGirl

Candice Kelly is a modern woman who no longer knows where she's heading.

Or what she wants from life. Or who she is.

After she believes she's "failed" a simple personality test at a Personal Development Day, there's only one conclusion to make: she's misplaced herself somewhere along the way.

In looking for herself, Candice lets us in on her hilariously quirky world of friendship and family, of laughter and love, and of the tough decisions that face us all about our ambitions for life.

Join Candice as she travels her roller-coaster path of discovery to find out where she needs to be, and the person she truly is.

Filled with unforgettable characters and inescapable truths, *The Feminist EarthMother PartyGirl* is an exuberant and joyous romp about choosing your own destiny.

About the author

Joni Page lives in beautiful Adelaide in friendly South Australia. She holds degrees in psychology and teaching, and Honours in education.

Joni lovingly crafts stories about people who are asking themselves big questions about what they want from life. Things don't always go their way, but they are brave and persistent, and they triumph.

Joni is grateful to have been part of the award-winning anthology *The Sound of Silence: Journeys Through Miscarriage*.

She is an obsessive gardener and a courageous cook.
